The above table sets forth the estimated annual retirement benefits payable in the form of a straight life annuity under the Company's retirement plan to its regular employees, including officers, in the final average earnings and years of service classifications indicated. The retirement plan is funded solely by the Company. Benefits normally are paid in the form of a straight life annuity or joint and survivor annuity, and are not subject to any deduction for Social Security or other offset amounts.

Annual compensation used to determine final average earnings under the plan includes salary, as set forth in the Summary Compensation Table, commissions, and, with respect to employees earning a salary less than a stated amount (which for 1994 was \$66,000), bonus payments. Compensation covered by the plan for 1994 was as follows: Mr. Adkins--\$212,500; Mr. Schimkaitis--\$145,250; Mr. Dean--\$96,000; Mr. Barefoot--\$84,859; Mr. West--\$123,000; and Mr. Reinhard--\$103,000. The calculation of benefits under the plan generally is based on average earnings for the highest five consecutive years of the ten years preceding retirement.

For 1994, the Internal Revenue Code of 1986, as amended, generally limits the annual benefits which may be paid under the plan to \$118,800 and limits the amount of annual compensation that may be taken into account in determining final average earnings to \$150,000. The table above does not reflect these limits. However, these limits may increase in future years. Furthermore, benefits earned before the limits went into effect generally are not affected by the limits. Finally, the Board of Directors of the Company has resolved to adopt a plan that is not a tax-qualified plan to provide benefits in excess of these limits.

As of December 31, 1994, the number of years of credited service under the retirement plan for each of the named executive officers were as follows: Ralph J. Adkins--32 years; John R. Schimkaitis--9 years; Kenneth H. Dean--1 year; Philip S. Barefoot--6 years; Jeremy D. West--5 years; and Jack E. Reinhard--6 years.

EMPLOYMENT CONTRACTS AND CHANGE IN CONTROL PROVISIONS

Chesapeake has entered into employment agreements with Messrs. Adkins, Schimkaitis, Dean, Barefoot, West and Reinhard. These agreements are designed to help retain such officers who are essential to the proper supervision of Chesapeake's businesses by assuring them of equitable treatment in the event of a termination of employment following a change in control of the Company. Under the agreements, if a change in control occurs, the failure to elect or reelect the officer to, or the removal of the officer from, the office held by the

officer, or the failure to elect or reelect the officer to, or the removal of the officer from, the Board of Directors of the Company (if the officer shall have been a member of the Board immediately prior to a change in control) would entitle the officer to terminate his employment and to receive certain termination payments as described below. An officer's good faith determination that the nature or scope of his duties has been significantly altered subsequent to a change in control would also entitle him to terminate his employment and to receive the termination payments provided in the agreement.

The agreements with Mr. Adkins and Mr. Schimkaitis were entered into on March 26, 1992, and provide for the employment of Mr. Adkins as the Company's President and Chief Executive Officer and of Mr. Schimkaitis as the Company's Vice President and Treasurer at salaries of \$200,000 and \$130,000, respectively, or such greater or lesser amounts as the Company's Board of Directors may determine (Mr. Schimkaitis has since then been promoted to Senior Vice President, Assistant Treasurer and Chief Financial Officer). The

10

agreements with Messrs. Dean, Barefoot, West and Reinhard were entered into on March 26, 1995, and provide for the employment of Mr. Dean and Mr. Barefoot as Senior Vice Presidents and of Mr. West and Mr. Reinhard as Vice Presidents of the Company at salaries of \$148,000, \$105,000, \$130,000 and \$103,000, respectively, or such greater or lesser amounts as the Company's Board of Directors may determine. Actual compensation for each of the officers is described in the Summary Compensation Table. Each of the agreements expires on March 26, 1997, and provides that if a change in control occurs prior to that date, the agreements will be automatically extended for a maximum of five years commencing on the date the change in control occurred (the "extension period").

The agreements are intended to maintain compensation and benefits following a change in control at levels generally comparable to those that such officers could reasonably have expected in the absence of a change in control. The agreements provide for the payment of compensation during the extension period at a level equal to the rate existing immediately prior to the change in control, adjusted throughout such period to reflect increases in the consumer price index. Each agreement also provides for the officer's continued eligibility during such extension period under the Company's employee benefit plans. In the event of a termination of employment other than for cause, an officer would receive under his agreement a termination payment equal to an amount approximating the compensation and the value of certain benefits under the Company's retirement, savings and stock option plans that he would have received had he continued to be employed by the Company for the lesser of 24 months (12 in the case of Mr. Reinhard) or the number of months remaining under the extended term of the agreement. However, such termination payment could not exceed the maximum amount that the Company could pay the officer without some part of the amount being nondeductible by the Company under Section 280G of the Internal Revenue Code. Each agreement also provides that the Company will indemnify the officer for any expenses he incurs in successfully enforcing his right to payments or benefits under his agreement and that the Company, upon the request of the officer, will provide the officer with an irrevocable letter of credit from a bank in the amount of \$100,000 against which the officer could draw to pay any expenses he incurs in attempting to enforce any of his rights under his agreement following a change in control.

REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors hereby provides the following report on executive compensation for the year ended December 31, 1994.

POLICIES AND GOALS

The Company's compensation goal is to enhance the profitability of the Company, and thus increase stockholder value, by attracting high-quality executive talent and closely aligning the financial interests of its senior managers with those of its stockholders. To this end, the Company's executive compensation program has been designed to provide competitive compensation levels based upon the successful achievement of specific annual and long-term objectives drawn from the Company's strategic plan.

11

COMPONENTS

The Company's executive compensation program relies on three interrelated components, consisting of base salary, annual bonus and long-term equity-based rewards.

Base Salary

The base salary structure for the Chief Executive Officer and the other executives is determined by means of a study prepared by independent compensation consultants, using comparison data from the same group of diversified natural gas organizations which the Company uses in its stock performance review (the "Industry Peer Group"). The midpoints of the recommended structure are set at or reasonably close to comparison averages, thereby providing marketplace priced compensation guidelines for executives. Annual salary adjustments are subjectively made after giving consideration to the individual's performance and contributions to the success of the Company. Executive base salaries generally fall below, but close to, the comparison averages. Salaries for the Chief Executive, Chief Financial, and other Executive Officers named in the Summary Compensation Table are originally set by employment contracts (see "Management Compensation--Employment Contracts and Change in Control Provisions"), but are adjusted annually pursuant to the process described above.

Annual Incentive Bonus

Annual bonuses are paid under the Company's performance-based cash bonus plan, adopted in January, 1992, based on the attainment of financial and non-financial objectives relative to pre-established performance targets. At the beginning of each year, the Committee selects the executives eligible to receive bonuses based on the executives' seniority and responsibilities. The Committee designates a maximum bonus amount for each executive, which is a percentage of that executive's base salary ranging from 20% to 30%. Maximum bonus amounts are determined separately for each of the Chief Executive Officer and other selected executives to conform with the median prevailing practices for individuals in similar positions in a group of approximately 1,000 organizations of comparable size. Because size was the primary consideration in choosing this group it includes some but not all of the companies in the Industry Peer Group. The Committee also identifies performance goals for each selected executive, relating to one or more business segments, to the Company as a whole, or both, and an aggressive target net income for the Company. Bonus awards are made to each selected executive, based on successful attainment of the relevant goals, reduced by applying a payout factor (which may vary for each executive) that is determined by the relationship between the Company's actual net income and the aggressive target. For 1994, most of the performance goals were achieved, either entirely or to a significant extent, including, approximately in order of relative weight: (1) achieving minimum returns on equity and income levels; (2) accomplishing regulatory initiatives; (3) achieving various growth initiatives; (4) accomplishing strategic planning activities; (5) implementation of marketing programs; (6) improving customer service; and (7) development of human resource programs. Based on these achievements, the Committee determined that between 64% and 95% of the goals have been met. Since the Company did not achieve the aggressive net income target, the payout factor of 90% was applied, resulting in bonuses of from 58% to 85% of the maximum bonus amounts.

Long-Term Performance Incentive Plan

In 1994, the Company granted tandem option and performance share awards designed to provide equity-based rewards for its executives keyed to corporate performance for the three-year award period ending December 31, 1997. Each award consists of a tandem (i.e., mutually exclusive) grant of (1) options to purchase the Company's common stock and (2) the right to receive, upon achievement during the three-year period of specific aggressive goals for return on equity and net income for the Company, a certain number of performance shares. The number of options and performance shares were determined separately for each of the Chief Executive Officer and other selected executives to conform with the median prevailing practices for individuals in similar positions in the group of organizations used to determine maximum bonus amounts. Similar tandem

option and performance share awards were granted in 1992 for the three-year award period ending December 31, 1994. The options and performance shares for both award periods are more fully described in the Summary Compensation Table and Option Grant Table. The performance shares subject to the 1992 grants were not earned since the Company did not meet the stated performance goals for the 1992 to 1994 award period, and all rights to these performance shares have expired.

COMPENSATION OF THE CHIEF EXECUTIVE OFFICER

During 1994, the compensation of the Company's Chief Executive Officer, Ralph J. Adkins, was determined based on the three-part program described above. First, Mr. Adkins' base salary was determined to approximate the midpoint of chief executive salaries paid by companies in the Industry Peer Group. Second, Mr. Adkins was awarded a bonus of \$53,986 or 25% of his base salary, determined in accordance with the policies described under "Annual Incentive Bonus" above. Approximately 75% of this amount was based on the Company's attainment in 1994 of a preestablished target net income, which represented a substantial improvement over net income of 1993. The remaining amount was based on the accomplishment of the individual performance goals described above by the other executive officers and their business units. Mr. Adkins' maximum bonus amount was \$64,500. The bonus awarded represented 93% of the maximum, reduced by applying a payout factor of 0.90. The full amount was not awarded since certain specific "stretch" net income goals were not met. Finally, the long-term performance incentive component of Mr. Adkins' compensation was determined as described under "Long-Term Performance Incentive Plan" above.

COMPLIANCE WITH INTERNAL REVENUE CODE SECTION 162(M)

Internal Revenue Code section 162(m), enacted in 1993, precludes any public corporation from taking a deduction for compensation in excess of \$1 million paid to its chief executive officer and any of its other named executive officers. Certain performance-based compensation, however, is specifically exempted from the deduction limit. No formal policy has been adopted by the Company with respect to qualifying compensation paid to its executive officers from the deduction limit. The Company does not anticipate that any compensation paid to its executive officers in 1995 will exceed the dollar limit.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of the Board's Compensation Committee and Plan Committee are Mr. Jardine, Mr. Shea and Mr. Warden. Mr. Jardine was formerly Chief Executive Officer of the Company from 1983 to 1990.

PROPOSAL TO ADOPT THE DIRECTORS STOCK COMPENSATION PLAN

The Board of Directors has adopted, subject to stockholder approval, the Chesapeake Utilities Corporation Directors Stock Compensation Plan. The full text of the Plan as proposed to be adopted is attached to this Proxy Statement as Exhibit A. Stockholders are urged to review Exhibit A carefully in their consideration of this proposal.

The Plan would provide for automatic annual awards to each Nonemployee Director of 400 shares of the Company's common stock. A Nonemployee Director is a member of the Board who is not at the time of receipt of an award or within one year prior to the date of the award an employee of the Company or any of its subsidiaries. The automatic stock award would be received by each Nonemployee Director each year, in advance, on the date of the Company's annual meeting. If the Nonemployee Director is elected or appointed other than at the annual meeting, a proportional number of shares would be awarded to the Director on that date, based on the period of time remaining until the next annual meeting. On the date a Director becomes the holder of record of shares granted under the Plan, the Director would have the right to vote the shares and to receive the cash dividends distributable with respect to the shares. The Plan would require the Director to hold the shares for a period of six months, after which time the shares would be freely transferrable, subject to restrictions under federal and state securities laws.

There are currently seven Nonemployee Directors that would receive automatic awards under the Plan. The aggregate number of shares of common stock that may be issued and awarded under the plan would not exceed 50,000 shares. The Plan would terminate on December 31, 2004, unless earlier terminated by the Board or extended by the stockholders.

The Nonemployee Directors of the Company are currently paid a retainer of \$3,000 per year, payable in advance, for their services as Directors, plus an attendance fee of \$600 for every meeting and committee meeting attended, except that the attendance fee is not payable for more than one meeting held on the same day. Upon adoption of the Directors Stock Compensation Plan, it is the Board's intention that cash retainers will no longer be paid. Attendance fees will continue to be paid on the same basis as previously.

The following table lists the number of shares to be automatically awarded annually pursuant to the Plan, as well as the dollar value of such shares as of March 31, 1995. The total number and value of shares to be awarded in the future will depend upon the number of Nonemployee Directors at the time. Information in the table is based upon the number of Nonemployee Directors currently serving on the Board, and reports the number of shares that will be granted on the date of the Company's upcoming annual meeting, if the Plan is approved. No person other than the Nonemployee Directors may receive any benefits under the Plan.

15

NEW PLAN BENEFITS

RECIPIENT	DOLLAR VALUE AS OF MARCH 31, 1995	NUMBER OF SHARES AWARDED ANNUALLY
Each Nonemployee Director	[400 x stock price]	400
All Nonemployee Directors as a Group	[2800 x stock price]	2800

The Board has determined that adoption of the Directors Stock Compensation Plan will be in the Company's best interests, by enhancing the Company's capability to attract, motivate and retain as Nonemployee Directors persons of training, experience and ability, and will encourage the highest level of Nonemployee Director performance by providing such Directors with a proprietary interest in the Company's growth and financial success.

The Board of Directors recommends a vote FOR adoption of the Directors Stock Compensation Plan. The affirmative vote of the holders of a majority of the outstanding shares of common stock of the Company present in person or represented by proxy and entitled to vote at the annual meeting is required to approve adoption of the Plan. Abstentions will have the effect of votes against the proposal. Shares held in "street name" by a broker or nominee who does not have discretionary authority to vote such shares on a particular matter ("broker nonvotes") are not counted as shares entitled to vote on such matters.

PROPOSALS TO AMEND AND RESTATE
THE COMPANY'S CERTIFICATE OF INCORPORATION

The Board of Directors has unanimously determined that certain amendments to the Company's present Restated Certificate of Incorporation, as amended, are advisable and has voted to recommend to the Company's stockholders the adoption of these amendments in a new Restated Certificate of Incorporation. The full text of the Proposed Amended Restated Certificate of Incorporation as proposed to be adopted is attached to this Proxy Statement as Exhibit B (the "Proposed Restated Certificate"). Since the proposed amendments are extensive, the Proposed Restated Certificate has been marked to indicate additions and deletions from the present Restated Certificate (amendments that have been previously adopted and that are being incorporated in the Proposed Restated Certificate are not marked). The Board believes that this presentation will make it easier and more convenient for stockholders to understand and evaluate the amendments being proposed.

Adoption of the Proposed Restated Certificate would accomplish four major purposes. First, the restatement would incorporate all prior amendments into a single document. Second, the proposed amendments would update and modernize the Certificate, by deleting or revising certain provisions that the Board believes are unnecessary, superseded by other laws, unclear, or out-of-date. Third, the proposed amendments would authorize the issuance of preferred shares of stock by the Board of Directors, with terms and conditions to be determined by the Board, without further stockholder approval. Finally, the proposed amendments would change the number of directors from a fixed number (currently nine) to a number to be determined by the Board of Directors from time-to-time, although not less than three, and make a corresponding change in the number of directors required for a quorum from a fixed number (currently five) to a majority of the full Board (this proposed amendment will be referred to as the "Board Amendment").

The proposed amendments are being presented to the stockholders for their adoption as two separate proposals. The first proposal includes all amendments reflected in the Proposed Restated Certificate other than the Board Amendment. The second proposal includes only the Board Amendment. The proposals are separated in this manner because the Board Amendment requires the vote of 75% of the Company's outstanding stock, rather than a simple majority.

The following discussion of the proposed amendments is not a complete description of every change reflected in the Proposed Restated Certificate, and this discussion is qualified in its entirety by reference to the full text set forth in Exhibit B. Stockholders are urged to review Exhibit B carefully in their consideration of this proposal.

The Company's original Certificate of Incorporation was filed with the Secretary of State of the State of Delaware on November 12, 1947, and was most recently restated in 1975. The Company's existing Certificate of Incorporation is in the form of the 1975 Restated Certificate, together with six amendments adopted from 1981 through 1993--each constituting a separate document--some of which amendments supersede earlier ones. The Board has determined that incorporation of these amendments into a single document will simplify reference to and interpretation of the Certificate. Stockholder approval is not required for a restatement of the Certificate where the restatement merely restates and integrates but does not further amend the Certificate.

MODERNIZATION AMENDMENTS

The existing Certificate includes a number of provisions that are unnecessary, superseded by other laws, unclear, or out-of-date. The Board believes that eliminating or revising these provisions, which will result in a shorter, simpler document, will make reference to the Certificate easier and more convenient. The Board further believes that conforming the provisions of the Certificate to developments under Delaware law will clarify interpretation of the Certificate.

With this in view, the proposed amendments would eliminate provisions that are no longer necessary, either as a practical matter (such as the names of the Company's original incorporators and transition procedures, which have already been implemented, for putting into place the Company's classified Board of Directors) or because a similar provision has been adopted into Delaware law, such as the provision for the Company's perpetual existence. Similarly, a provision stating that the private property of stockholders shall not be subject to the payment of corporate debts to any extent whatsoever has been deleted, in light of a Delaware law provision stating that, unless the Certificate expressly imposes liability on stockholders, they will not be personally liable for payment of corporate debts, except as they may be liable by reason of their own conduct or acts. The proposed amendments also would update outdated information (such as the name and address of the Company's registered agent), make the Certificate gender neutral; and eliminate certain provisions fixing the powers of the Board, as similar provisions have been incorporated into Delaware law. In addition, the proposed amendments would simplify the language describing the Company's corporate purposes; the new provision could eliminate a detailed recital of specific activities in which the Company may engage, substitute a streamlined statement of the Company's utility activities, and add language to make clear that the Company may conduct any lawful business or activity for which corporations may be organized under Delaware law.

AUTHORIZATION OF PREFERRED STOCK

The proposed amendments include provisions authorizing the issuance of 2,000,000 shares of preferred stock. These provisions would permit the Board to issue preferred stock from time to time without the necessity of further action or authorization by the Company's stockholders (unless required by applicable law or stock exchange requirements) in one or more series and with such voting powers, designations, preferences and relative, participating, optional or other special rights and qualifications as the Board may, in its discretion, determine, including, but not limited to (a) the distinctive designation of such series and the number of shares to constitute such series; (b) the dividends, if any, for such series; (c) the voting power, if any, of shares of such series; (d) the terms and conditions (including price), if any, upon which shares of such stock may be converted into or exchanged for shares of stock of any other class or any other series of the same class or any other securities or assets; (e) the right, if any, of the Company to redeem shares of such series and the terms and conditions of such redemption; (f) the retirement or sinking fund provisions, if any, of shares of such series and the terms and provisions relative to the operation thereof; (g) the amount, if any, which the holders of the shares of such series shall be entitled to receive in case of a liquidation, dissolution, or winding up of the Company; (h) the limitations and restrictions, if any, upon the payment of dividends or the making of other distributions on, and upon the purchase, redemption, or other acquisition by the Company of, the Company's common stock; and (i) the conditions or restrictions, if any, upon the creation of indebtedness or upon the issuance of any additional stock of the Company.

The Board believes that availability of the preferred stock will provide the

Company with needed flexibility of action for possible acquisitions, financing transactions and other general corporate purposes. The preferred stock would be available for issuance, on such terms as the Board determines, without further action by the stockholders unless such action is required by applicable law or stock exchange requirements. The Company has no present plans, agreements or commitments for the issuance of the preferred stock.

The actual effect of the authorization of the preferred stock upon the rights of the holders of common stock cannot not be stated until the Board determines the respective rights of the holders of one or more series of the preferred stock. Such effects, however, might include (a) restrictions on dividends on common stock if dividends on the preferred stock are in arrears; (b) dilution of the voting power of the common stock; and (c) restrictions on the rights of the holders of common stock to share in the Company's assets upon liquidation until satisfaction of any liquidation preference granted to the new preferred stock.

Although the Company has no present plans, agreements or commitments for the issuance of the preferred stock, the authorized but unissued shares of preferred stock could be used to make a takeover or change in control in the Company more difficult. Under certain circumstances, rights granted upon issuance of shares of preferred stock could be used to create voting impediments or to discourage third parties seeking to effect a takeover or otherwise gain control of the Company. For example, the shares could be placed with purchasers who might support the Board of Directors in opposing a hostile takeover bid or could be used in connection with adopting a stockholder rights plan. The issuance of new shares could also be used to dilute the stock ownership and voting power of a third party seeking to effect a merger, sale of assets, or similar transaction. In the event and to the extent the proposed amendment could facilitate such actions, it could serve to perpetuate incumbent management. The Board of Directors is not aware, however, of any specific effort or plan to accumulate the Company's securities or to obtain control of the Company by means of a merger, tender offer, solicitation in opposition to management, or otherwise.

18

The Company already has a number of defensive provisions in its Certificate of Incorporation, including a classified board of directors, a definition of "cause" for which directors may be removed, a supermajority voting requirement for business combinations with a 5% stockholder, and a prohibition against taking stockholder action without a meeting, all of which provisions require a 75% supermajority vote for any amendment thereto. These provisions were adopted in 1975 and are set forth in Articles Eighth, Ninth, Tenth and Twelfth of the Proposed Restated Certificate.

NUMBER OF DIRECTORS AND QUORUM (THE "BOARD AMENDMENT")

The Company's existing Certificate specifies that the number of directors shall be nine. The proposed amendments would replace the fixed number of directors with an unlimited number of directors (though not fewer than three), and provide that the precise number is to be determined by a majority of the directors then in office. The Board of Directors proposes this change in order to provide greater flexibility in determining the size of the Board. The proposed amendments would also make a conforming change to the number of directors required for a quorum, from a fixed number (currently five) to a majority of the whole Board. The Board has no current plans to increase or decrease the size of the Board.

The provision fixing the number of directors was adopted in 1975 as part of an amendment instituting a classified board (the original number was eight, changed to nine in 1986). The classified Board Amendment, in turn, was part of a series of provisions adopted as a package for the express purpose of providing "more effective resistance against any sudden or surprise attempt by an outsider to take control of the Company." Those amendments were designed to make it more difficult and discourage attempts to acquire control of the Company and also to maintain the continuity of the Company's management. While fixing the number of directors in the Certificate of Incorporation was part of a defensive package, the Board believes that the incremental defensive benefits of this provision, by itself, are minimal, and in any event are now outweighed by the advantages of flexibility in the size of the Board.

* * *

The Board of Directors believes that adoption of the Proposed Amended and Restated Certificate of Incorporation is in the best interest of the Company and its stockholders and recommends that the stockholders vote FOR both proposals. Approval of the Board Amendment will require the affirmative vote of at least 75% of the total voting power of all outstanding shares of the Company's stock. Approval of the proposal including all other proposed amendments will require the affirmative vote of at least the majority of the outstanding shares. Abstentions and broker nonvotes will have the effect of votes against the proposal.

If both proposals are approved, the Proposed Amended and Restated Certificate of Incorporation will become effective upon filing with the Secretary of State of the State of Delaware, which will occur as soon as reasonably practicable following the annual meeting. If only the proposal other than the Board Amendment is approved, the Proposed Amended and Restated Certificate will be revised to retain the current fixed number of directors and quorum provisions. If only the Board Amendment is approved, the existing Certificate will be restated only to incorporate the Board Amendment and other amendments previously adopted. If neither proposal is adopted, the existing Certificate will be restated only to incorporate amendments previously adopted. In any case, the new Restated Certificate of Incorporation will be filed in accordance with the procedures described above.

RELATIONSHIP WITH INDEPENDENT PUBLIC ACCOUNTANTS

The Board of Directors, following the recommendation of the Audit Committee, appointed Coopers & Lybrand to serve as Chesapeake's independent accountants for the year ending December 31, 1994, to perform audits of the financial statements of Chesapeake and its subsidiaries. In addition, Coopers & Lybrand was also retained during 1994 to render certain non-audit professional services.

It is not expected that a representative from Coopers & Lybrand will be present at the Annual Meeting of Stockholders.

RATIFICATION OF THE SELECTION OF INDEPENDENT AUDITORS

The Board of Directors has selected the firm of Coopers & Lybrand to serve as the independent auditors of Chesapeake and its consolidated subsidiaries for the fiscal year ending December 31, 1995. The Board is submitting the selection of Coopers & Lybrand for ratification by stockholders.

Coopers & Lybrand has served as independent auditors of Chesapeake and its subsidiaries since 1982 (See "Relationship with Independent Public Accountants"). The firm has wide experience in accounting and auditing for public utilities and other companies. Coopers & Lybrand is a member of the Securities and Exchange Commission Practice Section of the American Institute of Certified Public Accountants. By virtue of their membership in this Section, they have agreed to undergo a review by an independent accounting firm once every three years. Neither Coopers & Lybrand nor any of its partners has any direct or indirect financial interest in or any connection (other than as independent auditors or with respect to non-audit professional services) with Chesapeake or any of its subsidiaries. All of the professional services provided by Coopers & Lybrand are furnished at customary rates and terms.

Based upon the recommendation of the Audit Committee, the Board of Directors selected this firm to act as Chesapeake's independent auditors for the year 1995, subject to ratification by the stockholders, in the belief that Coopers & Lybrand is well qualified. Should the selection of Coopers & Lybrand as independent auditors of Chesapeake not be ratified by the stockholders, the Board of Directors will reconsider the matter.

SUBMISSION OF STOCKHOLDERS PROPOSALS

Any stockholder who wishes to submit a proposal for possible inclusion in Chesapeake's proxy statement for the next annual meeting must submit the proposal in writing to the Board of Directors on or before December 17, 1995. Written proposals should be directed to Wayne L. Hart, Secretary, Chesapeake Utilities Corporation, 861 Silver Lake Boulevard, Dover, Delaware 19904.

EXHIBIT A

THE CHESAPEAKE UTILITIES CORPORATION
DIRECTORS STOCK COMPENSATION PLAN

ADOPTED: _____

1. PURPOSE OF THE PLAN.

The purpose of the Directors Stock Compensation Plan of Chesapeake Utilities Corporation (the "Company") is to promote the interests of the Company by enhancing the Company's ability to attract, motivate and retain as Nonemployee Directors persons of training, experience and ability, and to encourage the highest level of Nonemployee Director performance by providing such directors with a proprietary interest in the Company's growth and financial success.

2. DEFINITIONS.

- (a) "Board" means the Board of Directors of the Company.
- (b) "Common Stock" means the Common Stock, \$.4867 par value, of the Company.
- (c) "Nonemployee Director" means a member of the Board who is not at the time of receipt of an award hereunder, or within one year prior to the date of such award, an employee of the Company or of any of its subsidiaries.

3. SHARES OF COMMON STOCK SUBJECT TO THE PLAN.

Subject to the provisions of Section 8, the aggregate number of shares of

Common Stock that may be issued and awarded under the Plan shall not exceed 50,000 shares. Such shares may be either authorized and unissued shares, or shares issued and thereafter acquired by the Company.

4. ADMINISTRATION OF THE PLAN.

The Plan shall be administered by the Board, which shall have the sole and complete authority to interpret the Plan and make all other determinations necessary for the Plan's administration. All action taken by the Board in the administration and interpretation of the Plan shall be final and binding on all concerned. The Board may designate officers and employees of the Company to assist the Board in the administration of the Plan and to execute documents on behalf of the Board, and the Board may delegate to such officers and employees such other ministerial and limited discretionary duties as it sees fit.

5. ELIGIBILITY.

Only directors of the Company who are Nonemployee Directors shall be eligible to receive awards under the Plan.

A-1

6. AUTOMATIC AWARDS.

Each Nonemployee Director shall receive an automatic award of 400 shares of Common Stock annually, in advance, on the date of the Company's annual meeting. If the Nonemployee Director is elected or appointed other than at an annual meeting, a proportional number of shares shall be awarded to the Director on that date, based on the period of time remaining until the next annual meeting. On the date a Director becomes the holder of record of shares awarded under the Plan, the Director will have the right to vote the shares and to receive the cash dividends distributable with respect to the shares. These shares may not be transferred by the Director for a period of six months following the date of the award, after which the shares will be freely transferrable, subject to the restrictions set forth in Sections 7 and 9.

7. LIMITATIONS ON AWARDS.

No award will be granted in whole or in part and no certificates representing shares of Common Stock shall be delivered (a) if any requisite approval or consent of any governmental authority having jurisdiction over grant of the award shall not have been secured or if the issuance of shares of Common Stock pursuant to the award would violate any federal, state or local law, regulation or order that may be applicable; (b) at any time that the Common Stock of the Company is listed on a stock exchange, if the shares of Common Stock pursuant to the award shall not have been effectively listed on such exchange, unless the Company is advised by its counsel that such listing is not required; or (c) at any time that the Company determines that the satisfaction of withholding tax or other withholding liabilities is necessary or desirable, unless such withholding shall have been effected. The Company will use its best efforts to obtain any such approval or consent and to effect compliance with any such applicable law, regulation, order, withholding or listing requirement, and the Director shall take any action reasonably requested by the Company in such connection.

8. ADJUSTMENT PROVISIONS.

If any subdivision or combination of shares of Common Stock or any stock dividend, capital reorganization or recapitalization occurs after the adoption of the Plan, proportional adjustments shall be made as are appropriate in the number of shares of Common Stock that may be awarded under the Plan in order to prevent the dilution or enlargement of any rights to an award hereunder, provided that such adjustment shall not result in the issuance of fractional shares. 9. NO REGISTRATION.

The shares awarded under this Plan may be restricted securities as defined in Rule 144 under the Securities Act of 1933, as amended, and the Company shall have no obligation to register any of the shares of stock issued, delivered or paid under the Plan, under the Securities Act or any state securities laws.

10. GENERAL.

Nothing in the Plan or in any instrument executed pursuant to the Plan shall confer upon any person any right to continue to serve as a Director of the Company if validly removed. Nothing herein shall preclude the Company from authorizing or approving other plans or forms of compensation for Directors. All reasonable expenses of administering the Plan shall be paid by the Company.

any reason the number of directors in the various classes shall not conform
with the formula set forth in the preceding paragraph, the Board of Directors
may redesignate any director into a different class in order that the balance
of directors in such classes shall conform thereto.

holders of not less than seventy-five percent (75%) of the total voting power
of all outstanding shares of stock of this Corporation shall be required for
the approval of any such proposal; provided, however, that the foregoing shall
not apply to any such merger, consolidation or sale of assets or business which
was approved by resolutions [resolution] of the Board of Directors of this

Corporation prior to the acquisition of the ownership or control of five
percent (5%) of the outstanding shares of this Corporation by such other

corporation or its affiliates, nor shall it apply to any such merger, consolidation or sale of assets or business between this Corporation and another corporation fifty percent (50%) or more of the stock of which is owned by this Corporation. If the Delaware General Corporation Law is amended after approval by the stockholders of this article to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent permitted by the Delaware General Corporation Law, as so amended.

Any repeal or modification of the foregoing paragraph by the stockholders of the Corporation shall not adversely affect any right or protection of a Director of the Corporation existing at the time of such repeal or modification.
