Safe Harbor Statement

Some of the Statements in this document concerning future Company performance will be forward-looking within the meanings of the securities laws. Actual results may materially differ from those discussed in these forward-looking statements. You should refer to the additional information contained in Chesapeake Utilities' Annual Report on Form 10-K for the year ended December 31, 2022 filed with the SEC and other subsequent SEC filings concerning factors that could cause those results to be different than contemplated in today's discussion.

Non-GAAP Financial Information

This presentation includes non-GAAP financial measures including Adjusted Gross Margin. A "non-GAAP financial measure" is generally defined as a numerical measure of a company's historical or future performance that includes or excludes amounts, or that is subject to adjustments, so as to be different from the most directly comparable measure calculated or presented in accordance with GAAP. Our management believes certain non-GAAP financial measures, when considered together with GAAP financial measures, provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionately positive or negative impact on results in any particular period. A reconciliation of GAAP to non-GAAP financial measures is included in the appendix of this presentation.

The Company calculates Adjusted Gross Margin by deducting the purchased cost of natural gas, propane and electricity and the cost of labor spent on direct revenue-producing activities from operating revenues. The costs included in Adjusted Gross Margin exclude depreciation and amortization and certain costs presented in operations and maintenance expenses in accordance with regulatory requirements. Adjusted Gross Margin should not be considered an alternative to Gross Margin under US GAAP which is defined as the excess of sales over cost of goods sold. The Company believes that Adjusted Gross Margin, although a non-GAAP measure, is useful and meaningful to investors as a basis for making investment decisions. It provides investors with information that demonstrates the profitability achieved by the Company under the Company's allowed rates for regulated energy operations and under the Company's competitive pricing structures for unregulated energy operations. The Company's management uses Adjusted Gross Margin as one of the financial measures in assessing a business unit's performance. Other companies may calculate Adjusted Gross Margin in a different manner.

Key Drivers of Growth

Organic Growth	 Natural gas continues to be the preferred energy source for our customers, driving continued high growth rates 5.5% / 4.0% residential customer growth in Delmarva / Florida for Q2'23
Gas Transmission	 Completion of Beachside expansion project in Vero Beach, Florida Clean Energy expansion for CNG fueling station in Davenport, Florida Pipeline expansions continue to advance at the Wildlight Community in Yulee, Florida and other locations throughout our service territories ESNG's Southern Expansion expected to go into service in Q4'23 New projects being evaluated and pursued in Delmarva, Florida and Ohio
Propane Distribution	 Strategic acquisitions and expansions within complementary markets Investing in community gas systems in areas not served by natural gas Integrating Sharp's programs and service offering to recent acquisitions (e.g., pricing programs, AutoGas, etc.)
Marlin Gas Services	 Increased demand for CNG services Expand service offering to support RNG, LNG and hydrogen transportation Interim solution for construction projects providing speed to market
Sustainable Investments	 Construction underway on first RNG facility at Full Circle Dairy and expansion of Planet Found site Member of the Mid-Atlantic Clean Hydrogen Hub (MACH2) team representing the Delaware, Philadelphia and Southern New Jersey region

Growing Service Areas Across Delmarva and Florida

Well positioned to service concentrated growth areas:

Middletown, Delaware

- Increased customer base by 71% over last 10 years
- Ranked in top five towns in the nation by Fortune.com
- Nine schools built in past 10 years to support 30% of population aged 19 or younger
- Future home of major Pharmaceutical facility

Wildlight (Yulee), Florida

- Multi-phase project with ~22 thousand residential units at full buildout
- Additional load expected due to new supporting infrastructure
- High-end growth targets provide potential for ~\$100 million in total capital and ~\$20 million in annual margin

Continued Pipeline Expansions to Support Distribution Growth

Eastern Shore: Southern Expansion

- Natural gas driven compressor skid at Bridgeville, Delaware compressor station
- Expected to go into service in the fourth quarter of 2023 and provide 7,300 Dts of incremental firm transportation capacity
- Will generate adjusted gross margin of \$2.3 million in 2024 and thereafter

- Wildlight Expansion: multi-phase project to serve growing demand in Yulee, Florida
 - Multiple pipeline extensions, a gas injection interconnect, and associated facilities
 - Various phases commenced in Q1'23 and continue through 2025
 - Expected adjusted gross margin of \$2 million in 2024 and beyond
 - Newberry Expansion: pipeline extension project approved by Florida PSC in July 2023
 - Support the development of a natural gas distribution system that will bring gas service to the City of Newberry
 - Related transportation service agreement provides for 8,000 Dt/d of firm service

Newberry Expansion	\$18.1 million	2025	TBD

Total investments of \$83.4 million generate incremental

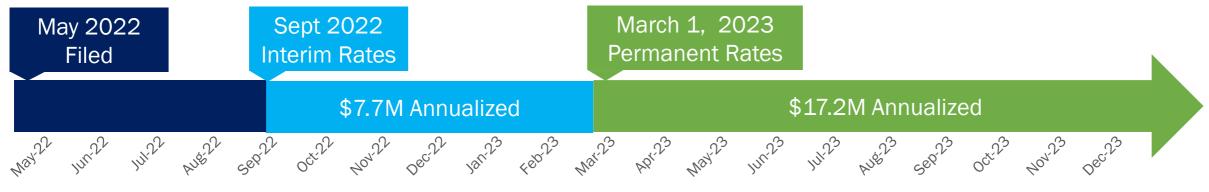

adjusted gross margin of \$11.2 million once fully in service in 2025

Regulatory Initiatives - Rate Case Activity

•Florida Public Utilities' natural gas base rate case was approved in February, with an effective date beginning on March 1, 2023

- Included a depreciation study and the consolidation of four natural gas distribution entities in Florida
- Provides incremental rate base of \$17.2 million and allowed return on equity of 10.25%
- Equity percentage of 55%

•Maryland rate case

- Planning combined rate case and depreciation studies for Maryland Division, Sandpiper Energy, and Elkton Gas
- Filing date anticipated by January 31, 2024

Regulatory Initiatives – Infrastructure Programs

Florida GUARD Program

- In February 2023, Florida Public Utilities filed for petition of the GUARD program (Gas Utility Access and Replacement Directive)
- 10-year program to enhance safety, reliability and accessibility of portions of FPU's natural gas distribution system:
 - Relocating mains and service lines from rear easements and other difficult access areas to front of street
 - Replacing problematic distribution mains, service lines and maintenance and repair equipment
- Approved by the Florida Public Service Commission; Includes \$205 million of capital expenditures projected over 10 years and expected adjusted gross margin of less than \$0.1 million in 2023 and \$1.4 million in 2024

Storm Protection Plan

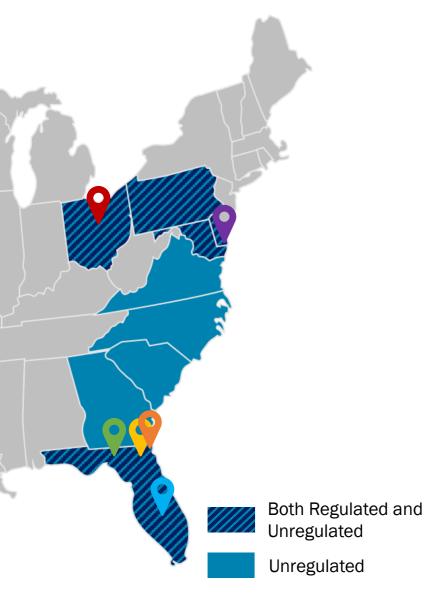

- FPU's electric utility Storm Protection Plan and Storm Protection Plan Cost Recovery mechanisms were approved in the fourth quarter of 2022, with modifications by the Florida PSC
- Expected adjusted gross margin of \$1.0 million in 2023 and \$2.4 million in 2024 with continued investment going forward

Eastern Shore Capital Cost Surcharge Programs

- Eastern Shore recovery mechanism for capital costs associated with mandated highway and railroad relocation projects, along with PHMSA required safety upgrades that require the replacement of existing Eastern Shore facilities
- Expected adjusted gross margin of \$2.8 million in 2023 and \$3.6 million in 2024

Expanding Our Service Territory With Sustainable Investments

Noble Road Landfill RNG Pipeline

• 33-mile pipeline transporting RNG to Aspire Energy of Ohio's gathering system

Planet Found Biogas Facility

• First poultry waste-to-energy project on the Delmarva Peninsula, currently generating electricity and capable of producing RNG

Clean Energy Expansion – Under Construction

• 2.2-mile pipeline transporting natural gas to support Clean Energy Fuels' CNG fueling station

Radio Road RNG Injection Point

- Injecting RNG and can accept CNG and LNG
- Our first gate system in Florida to allow alternative fuels to be injected into pipeline delivery system

Full Circle Dairy RNG Processing Facility – Under Construction

- First full-scale RNG processing facility utilizing dairy cow waste as feedstock
- Processing and delivering more than 100K Dts per year of RNG

Hydrogen Testing at Eight Flags CHP

- Successful test of 4% hydrogen blend in early 2022
- New turbine installed in December 2022, which can accommodate greater quantities of hydrogen
- Testing with 10% and 20% blends scheduled for 2023

Chesapeake Utilities' Company Culture

2022 Sustainability Report

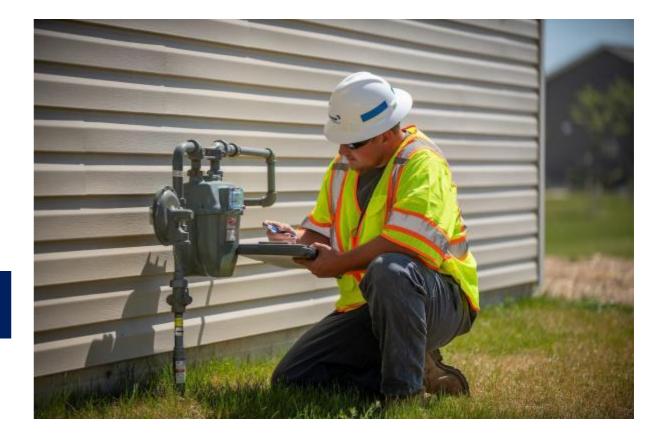

CHESAPEAKE

2022 Sustainability Report

2022 Top Safety Performer

- Recognized by the American Gas Association (AGA)
 - FPU and ESNG earned AGA Safety Achievement Award, demonstrating commitment to employee and vehicular safety
 - Aspire Energy named an industry leader in accident prevention and for achieving a lower than industry standard rate related to the impact of workplace injuries

Weather During the Six Months Ended June 30, 2023

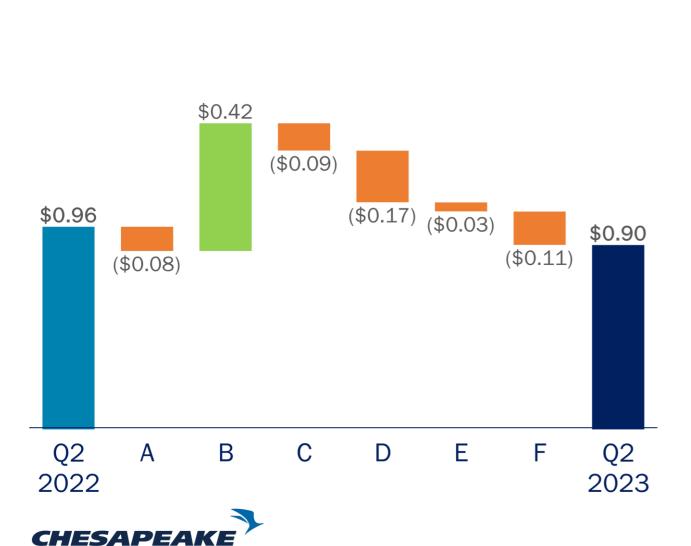

Exceptionally Warm Weather Across All Service Areas

- •The effects of warmer temperatures continued into the second quarter and have significantly impacted our earnings through the first half of 2023
- Delmarva and Ohio service territories had a more significant impact given the heat load in our northern service areas
- CPK significantly mitigated the impacts of weather through organic growth initiatives, the Florida rate case outcome and cost management
- •We will continue to take steps to offset the impacts of weather throughout the year

Year-to-Date Highlights

•Operating income up **10.5%** driven by:

- · Permanent rates associated with Florida natural gas base rate proceeding
- Organic growth in natural gas distribution operations, including propane CGS conversions
- Pipeline expansions by Eastern Shore Natural Gas, Florida Natural Gas, Peninsula Pipeline and Aspire Energy Express
- Incremental contributions from regulated infrastructure programs
- Partially offset by reduced consumption attributable to warmer weather

Unregulated Energy Segment – Financial Summary

Warmer weather partially offset by continued demand for CNG/RNG/LNG services

Year-to-Date Highlights

- •Operating income down **21.0%** due to:
- Reduced customer consumption impacted adjusted gross margin by \$5 million in Delmarva and Ohio regions due to warmer weather
- Partially offset by increased propane margins and service fees
- Decreased consumption from the conversion of propane customers to our natural gas system
- Increased demand for CNG/RNG/LNG services
