

Barclays 38th Annual CEO Conference Investor Presentation

CHESAPEAKE
UTILITIES CORPORATION

September 2024

Safe Harbor for Forward-Looking Statements

Safe Harbor Statement

Some of the statements in this presentation are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 and other applicable law. Such forward-looking statements may be identified by the use of words, such as “project,” “believe,” “expect,” “anticipate,” “intend,” “plan,” “estimate,” “continue,” “potential,” “forecast” or other similar words, or future or conditional verbs such as “may,” “will,” “should,” “would” or “could.” These statements represent our intentions, plans, expectations, assumptions and beliefs about our future financial performance, business strategy, projected plans and objectives. These statements are subject to many risks and uncertainties and actual results may materially differ from those expressed in these forward-looking statements. Please refer to Chesapeake Utilities Annual Report on Form 10-K for the year ended December 31, 2023 filed with the SEC and other SEC filings concerning factors that could cause those results to be different than contemplated in this presentation.

Non-GAAP Financial Information

This presentation includes non-GAAP financial measures including Adjusted Gross Margin, Adjusted Net Income and Adjusted Earnings Per Share (“EPS*”). A "non-GAAP financial measure" is generally defined as a numerical measure of a company's historical or future performance that includes or excludes amounts, or that is subject to adjustments, so as to be different from the most directly comparable measure calculated or presented in accordance with GAAP. Our management believes certain non-GAAP financial measures, when considered together with GAAP financial measures, provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionately positive or negative impact on results in any particular period.

The Company calculates Adjusted Gross Margin by deducting the purchased cost of natural gas, propane and electricity and the cost of labor spent on direct revenue-producing activities from operating revenues. The costs included in Adjusted Gross Margin exclude depreciation and amortization and certain costs presented in operations and maintenance expenses in accordance with regulatory requirements. The Company calculates Adjusted Net Income and Adjusted EPS by deducting costs and expenses associated with significant acquisitions that may affect the comparison of period-over-period results. These non-GAAP financial measures are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not as a substitute for, the comparable GAAP measures. The Company believes that these non-GAAP measures are useful and meaningful to investors as a basis for making investment decisions and provide investors with information that demonstrates the profitability achieved by the Company under allowed rates for regulated energy operations and under the Company's competitive pricing structures for unregulated energy operations. The Company's management uses these non-GAAP financial measures in assessing a business unit and Company performance. Other companies may calculate these non-GAAP financial measures in a different manner.

See Appendix for a reconciliation of Gross Margin, Net Income and EPS, all as defined under GAAP, to our non-GAAP measures of Adjusted Gross Margin, Adjusted Net Income, and Adjusted EPS for each of the periods presented.

*Unless otherwise noted, EPS and Adjusted EPS are presented on a diluted basis.

Track Record of Investment Growth Driving Top-Quartile Performance

Significant capital investment over the last 20 years has driven strong financial performance, earnings growth and increased shareholder value, while maintaining consistently top-quartile ROEs

>10X Total Asset Growth

10X Adjusted Net Income Growth

Adjusted EPS 20-Yr CAGR: 8%

20 Years of Consistently Top-Quartile ROEs

Dividend per Share 20-Yr CAGR: 6%

2003 2004 2005 2006 2007 2008 2009 2010 2011 2012 2013 2014 2015 2016 2017 2018 2019 2020 2021 2022 2023

Well-Positioned for Long-Term Success

Strong Customer Demand Growth

- Residential customer growth¹ of **3.9% in Delmarva** and **3.7% in Florida**
- Customer **demand for CPK energy services** remains high
- **New service additions** within the utility markets continue above industry levels
- Builder and Commercial and Industrial customers **interest remains strong**

Significant Capital Investment Opportunities

- Strong capital investment **growth opportunities across the enterprise**
- Enhanced by FCG, which brings **new markets with high demand** and exposure to the LNG, space and travel industries
- Blend of **infrastructure, technology, and new growth** investments
- **Geographic diversity** of investments to capture opportunities in multiple markets

Proactive Regulatory Approach

- **Regulatory agenda is very active**, driven by CapEx opportunities and economic conditions
- Engaged in **policy making discussions** within all state jurisdictions
- Regulatory environment continues to be **constructive**
- Support for **PPC/ESNG projects** and energy efficiency programs

Entrepreneurial & Innovative Culture

- Continued focus on **innovative customer solutions**
- **Leveraging unregulated businesses** for strategic solutions
- Sustainability investments that align with our other businesses
- **Continuous improvement mindset**

High-Growth Service Areas Drive Investment Opportunities

Strong Customer Growth

Q2 2024 vs Q2 2023

YTD 2024 vs YTD 2023

Cecil County Case Study

- CPK began gas transmission expansion in 2018 to serve initial commercial growth
- To date, at least 28 miles of transmission infrastructure have been installed
- This increased capacity attracted a number of industrial and commercial businesses to the area, driving significant economic growth for Cecil County

"Chesapeake Utilities' infrastructure investments have expanded availability of natural gas along U.S. Route 40, benefiting a wide range of current and future customers in this designated growth corridor, and we look forward to a continued partnership with Chesapeake Utilities for years to come."

— Cecil County Economic Development Commission

Worcester Resiliency Upgrade Project Proceeding On Schedule

Eastern Shore Natural Gas LNG Storage project designed to meet critical energy service to customers during the peak winter heating season.

- \$80 million planned liquefied natural gas storage facility in Bishopville, MD
- Project consists of five low-profile horizontal storage tanks allowing for up to 500 thousand gallons of storage plus pipeline looping and additional upgrades
- Incremental storage capacity will help protect against weather-related disruptions, to support affordable energy prices
- Easements now complete
- Discussions for tank delivery plan are underway
- Equipment purchase orders and engineering / designs being organized
- Expecting FERC Approval by year-end 2024, with construction to start in Q1 2025 and the full project to be in-service in Q3 2025

380M³ Liquefied Natural Gas Storage Tanks

Significant Capital Investment from Approved Infrastructure Programs

Gas

Electric

Eastern Shore

Capital Cost Surcharge

5-Year CapEx	\$50-100M
'24E Gross Margin	\$4.0M
'25E Gross Margin	\$4.4M

- **February 2018:** Received approval for program that allows recovery of costs for highway or railroad relocation projects related to equipment replacements

Elkton Gas

- **Aldyl-A pipeline replacement** recently completed under PSC-Approved STRIDE filing

Florida City Gas

SAFE Program

10-Year CapEx ¹	\$255M
2024E Gross Margin	\$2.7M
2025E Gross Margin	\$5.3M

- **April 2024:** Filed petition to more closely align SAFE program with FPU's GUARD program to accelerate remediation for problematic, obsolete, and exposed pipe
- Proposal represents an incremental \$50 million, leading to total project capital expenditures of **\$255 million** over 10 years

Florida Public Utilities

GUARD Program

10-Year CapEx	\$205M
2024E Gross Margin	\$3.2M
2025E Gross Margin	\$5.6M

- **August 2023:** GUARD program approved, to improve safety, reliability and accessibility of portions of the natural gas distribution system, including relocation, replacement, and/or repair of equipment and assets
- Represents **\$205 million** of capital expenditures over 10 years

Storm Protection

5-Year CapEx	\$50-75M
'24E Gross Margin	\$2.4M
'25E Gross Margin	\$5.0M

- **Q4 2022:** Received approval for FPU Electric's Storm Protection Plan and associated Storm Protection Plan Cost Recovery Mechanism

Drivers of Unregulated Business Growth

Propane Distribution

- Strategic acquisitions and expansions within complementary markets
 - Including J.T. Lee & Sons acquisition in 2023
- Investing in community gas systems in areas not served by natural gas
- Integrating Sharp's programs and service offering to recent acquisitions (e.g., pricing programs, AutoGas, etc.)

Marlin Gas Services

- Increased demand for CNG services
- Service offerings to support RNG, LNG and hydrogen transportation
- Interim solution for construction projects providing speed to market

Sustainable Investments

- Construction underway on first RNG facility at Full Circle Dairy and expansion of Planet Found site
- Introducing groundbreaking technology - a self-contained CNG/RNG fueled farm irrigation and waste pumping unit at Full Circle Dairy
- Member of the Mid-Atlantic Clean Hydrogen Hub (MACH2) team representing the Delaware, Philadelphia and Southern New Jersey region

Renewable Natural Gas (RNG) Initiatives

As part of our vision of being a leader in delivering energy that contributes to a sustainable future, Chesapeake Utilities has completed two RNG development facilities and is poised to execute on opportunities that enable us to use our existing transportation services and construction expertise to provide pathways for RNG

Planet Found

Somerset County, Maryland

- Acquired in October 2022, Planet Found Energy Development is dedicated to developing poultry litter energy technologies and performing ongoing R&D of waste-to RNG facilities

Noble Road

Shiloh, Ohio

- 33-mile pipeline transporting RNG from the third-party Noble Road Landfill to Aspire Energy's gathering system

Radio Road

Yulee, FL

- CPK's first gate system in Florida to allow alternative fuels to be injected into the pipeline delivery system; can accept RNG, CNG & LNG

Full Circle Dairy

Northwest Florida

- Project is now producing RNG and in commissioning phase
- Produced RNG is transported and injected into the CPK system in Yulee, Florida by Marlin
- Once fully operational, Full Circle Dairy is expected to produce an average of 100,000 dekatherms annually

RNG Transportation

Brevard, Indian River & Miami-Dade Counties, Florida

- In July 2024, the Florida PSC approved CPK to construct infrastructure in three Florida counties to transport RNG from third-party production facilities into the CPK system
- In totality, the three projects represent ~27 miles of transportation along with associated facilities at a total capital cost of approximately \$46M

Making Strides with Business Transformation

We are continually evaluating and improving our people, processes, systems and structures in order to ensure long-term success and growth in an ever-changing environment.

Achieving Operational Synergies

Consolidating processes and resources and incorporating operations into existing systems

Optimizing Operations

"Best of Both" approach to identify and implement efficiencies and operations throughout Florida

Accelerating Investment Opportunities

Moving forward on regulatory approvals and construction to support FCG service area growth

On August 26, 2024, CPK's new **SAP customer information system** went live, with a successful implementation thus far.

This system supports our **one-company operating vision**:

- streamlining **field operations** across all regulated business units,
- consolidating our **customer service platforms** and
- moving us closer to our goal of providing **top-quartile service**.

SAP will be implemented for FCG in Spring 2025

1CX team Members gather for team bonding at a volunteer event earlier this year

Working Together to Make Life Better for the Communities We Serve

Prioritizing Safety

Our hurricane preparation proved valuable, as only 8% of FPU Electric customers reported a power loss during Hurricane Debby

CPK's second Safety Town, located in DeBary, Florida, nearing completion

Sustainability Leadership

Micro-Sustainability Report on Safety and Reliability published April 2024

Micro-Sustainability Report on Environmental Stewardship to be issued in Q3 2024

Community Support

Dedicated a trail in DE's State Park System to long-time board member Eugene Bayard.

Turning recycled pipe into useful and beautiful benches for local communities, parks, and trails

Note: Historic Adjusted EPS presented from continuing operations.

¹ Beginning in the third quarter of 2023, the Company's earnings per share metric was adjusted to exclude transaction-related expenses attributable to the announced acquisition of FCG including, but not limited to, legal, consulting, audit and financing fees.

² The sum of the four quarters does not equal the full year amount due to rounding and the impact of average share counts

Continued Strong Financial Performance in 2024

Adjusted Diluted EPS¹

Key Financial Highlights

Q2 2024 Results

- Adjusted Gross Margin: \$126.6M, up 27% from Q2 2023
- Adjusted Net Income: \$19.3M, up 19% from Q2 2023

Earnings Guidance Reaffirmed

- FY 2024 Adjusted EPS of **\$5.33 - \$5.45** per share
- FY 2025 Adjusted EPS of **\$6.15 - \$6.35** per share
- FY 2028 Adjusted EPS of **\$7.75 - \$8.00** per share

CapEx Guidance Reaffirmed

- YTD 2024 Capital Expenditures of **\$160M**
- 2024 Capital Expenditure Guidance: **\$300M - \$360M**
- 2024 - 2028 5-Year CapEx Guidance: **\$1.5B - \$1.8B**

Increasing Adj. Gross Margin Driving Bottom-Line Growth

Gross margin growth drove higher operating income and bottom-line net income, averaging 30%+ growth.

Excluding transaction & transition-related expenses², Q2 2024 operating income increased \$13.8M, or 49%

¹ See appendix for a reconciliation of non-GAAP metrics. ² Transaction and transition-related expenses represent costs incurred attributable to the acquisition and integration of FCG including, but not limited to, transaction costs, transition services, consulting, system integration, rebranding and legal fees.

Key Drivers of Performance – Three Months Ended June 30, 2024

Adjusted EPS for the second quarter benefited from our core business performance and recent acquisition of Florida City Gas; offset primarily by financing costs related to the FCG acquisition.

Adjusted Diluted Earnings Per Share¹

¹ See appendix for GAAP to non-GAAP reconciliation for adjusted diluted earnings per share.

² Includes a benefit from RSAM of \$2.3 million, pre-tax, or \$0.08 per share.

Pathway to 2024 EPS¹ Guidance

Our 2024 target is based on continued growth from our legacy businesses, a full year of contribution from FCG, and additional opportunities we have identified.

Adjusted Diluted Earnings Per Share¹

Weather Has Generally Been Warmer than Normal

Regulated Energy Segment Generates Operating Income Growth

Adj. Gross Margin¹ up 34% & Operating income up 38%, driven by:

- \$23.4M from FCG operations & growth
- \$1.8M from natural gas growth, conversions and service expansions
- \$1.3M from transmission expansions and regulated infrastructure programs

Partially offset by primarily \$8.6M of FCG operating expenses

	Q2 2023	Q2 2024
Adjusted Gross Margin ¹	\$ 77.3	\$ 103.2
D&A + Property Taxes	18.9	22.9
Transaction + Transition Expense ²	—	1.4
Other Operating Expenses	29.1	38.5
Operating Income (Loss)	\$ 29.3	\$ 40.5

Improvement in Unregulated Energy Segment Relative to Q2 2023

Adjusted Gross Margin¹ up 3%, driven by:

- \$0.6M from higher Marlin virtual pipeline services
- \$0.3M from increased margins for Aspire Energy in Ohio
- \$0.3M from propane operations

Partially offset by \$0.5M of increased insurance and vehicle expenses

	Q2 2023	Q2 2024
Adjusted Gross Margin ¹	\$ 22.6	\$ 23.4
D&A + Property Taxes	4.8	3.8
Other Operating Expenses	18.9	19.3
Operating Income (Loss)	\$ (1.0)	\$ 0.2

¹ Operations & maintenance expenses within the Consolidated Statements of Income are presented in accordance with regulatory requirements and to provide comparability within the industry. Operations & maintenance expenses which are deemed to be directly attributable to revenue producing activities have been separately presented above in order to calculate Gross Margin as defined under US GAAP. See Chesapeake Utilities' Annual Report on Form 10-K for the year ended December 31, 2023 for additional details.
